Dear Paul:

The enclosed orders, Nos. 6400508 and 6400509, are for a total of 50 keys to be engraved for our new Kansas Gamma chapter. In accord with our usual procedure, I am sending the orders to your special attention with the request that you put them in priority position and have them filled and sent to John R. Schlup, president of Kansas Gamma, prior to the date of initiation, January 27. Since all new chapter initiation ceremonies are "models," it is most important that the engraved keys be on hand for the ceremony.

Three additional new chapters are scheduled to be installed this season: Florida Gamma on February 16, 1974, California Omicron on March 9, 1974, and California Pi on March 10, 1974. I shall make every effort to send the key orders for these chapters to you as far in advance of the installation dates as possible.

Need I tell you again how much I appreciate your cooperation in regard to my special requests? I do. Many thanks, Paul.

Sincerely yours,

Robert H. Nagel

Dear John:

I have received Eric Schoeff's January 3 letter and your Reports of Election and Catalog Cards. I believe I understand everything.

Our Official Approval for your January 27 initiation is enclosed. It states that all 50 of your electees are approved, including those for whom Catalog Cards have not yet been received. Yes, all of these people are to be initiated on January 27, whether or not I have their Catalog Cards -- so long as you vouch for their eligibility for membership in Tau Beta Pi.

Engraved keys have been ordered for all 50 of these people. They will be delivered directly to you by the Balfour Company, on special rush order. When you get them, you have some more work! Each key must have a brown and white ribbon bow tied to it, with a straight pin through the knot of the bow, per the enclosed instructions and sample. The bolts of ribbon are enclosed.

I still need from you, please, a Report of your chapter officers and advisors. Jot them down on the enclosed report sheet and send it to me pronto.

You have the copy of my letter of yesterday to John Wilson concerning the initiation on January 27 of all his Sigma Tau active members. If you run into any problems or questions on this Sigma Tau matter, or anything else, please telephone me here at the office, to save time. You don't have a hard enough job getting your own Tau Beta Pi chapter started, but it is complicated now by the Sigma Tau merger! I certainly appreciate all the extra work you are doing to make the whole sagbang successful.

Official installing deputy for your Kansas Gamma chapter will be our national president, Mr. George P. Palo. He and I will get to Manhattan from Lincoln, Nebraska, where we shall be converting the Sigma Tau chapter into the first new Tau Beta Pi chapter on January 26. All I know is that we are driving from Lincoln to Manhattan late on January 26, with Professor George W. Forman, national president of Sigma Tau. Professor Forman will also participate in your installation and Sigma Tau chapter merger. We'll make our own overnight room reservations in Manhattan, when our travel schedule is firmed up.

Mr. John R. Schlup

January 8, 1974

In any event, I want to have a one hour meeting on Sunday morning, January 27, with your Kansas Gamma officers and advisors, to talk over the details of the day's activities and general chapter operations. Immediately after that meeting, I want to get into the initiation room to set up our equipment, which will take another hour. Then, after a bite of lunch, we'll be ready to greet your arriving initiates and get the formal program under way on your schedule. Will you please contact your officers and advisors and ask them to that Sunday morning meeting, at a time and place convenient to you? Tell me the details later.

Sincerely yours,

Robert H. Nagel

Dear Mr. Nagel:

Enclosed are the Reports of Election from the Kansas Gamma Chapter. We would like to note again that "CM" was used in the "Present Member" column to recognize the members of the petitioning chapter as charter members of the Kansas Gamma Chapter.

Catalog Cards have also been enclosed. There were many former members of the petitioning chapter who did not reply to our letter informing them of our acceptance as a national chapter. These people were marked as refusing election. Several present charter members and two former members accepted election, but failed to return the Catalog Cards. It is our hope that we may initiate these people and send their catalog cards to you when they return after the semester break. The following people failed to turn in cards:

✓ Janet E. Hull CM	✓ Wayne J. Mikols CM
✓ James Leach CM	✓ John D. Wilson CM
✓ Bruce A. Napier CM	✓ Hassan Pirasteh Far CM
✓ Assadigh El-Magboub CM	✓ Stephen N. Vaughn CM
✓ Dana M. Smerchek CM	

Thank you for your assistance.

Dear Phil and Tom:

Our new Kansas Gamma chapter at Kansas State University will be formally installed on Sunday afternoon, January 27, 1974. In the same ceremonies we shall also "merge" the Sigma Tau chapter at Kansas State into The new Tau Beta Pi chapter.

Because your two chapters were involved in the inspection visit to Kansas State University and the petitioning group last winter, and because you had a direct part in the Convention action which approved the Kansas Gamma chapter, I should like to suggest that each of you write a brief letter of congratulations and welcome to the Kansas Gamma president, as follows:

Mr. John R. Schlup
1919 Hunting
Manhattan, Kansas 66502

You might also drop a note of welcome to the K.S.U. Sigma Tau chapter president (who is also a member of the Tau Beta Pi petitioning group) welcoming him and his Sigma Tau members into Tau Beta Pi. He is:

Mr. John D. Wilson
Department of Applied Mechanics

I am sending a copy of this letter to Dr. Edward J. Rodgers, faculty advisor to Kansas Beta, because he was on the inspection visit to K.S.U. with us a year ago and may want to drop a note to the new chapter. The Kansas Alpha faculty advisor who inspected with us in 1973 was Professor George W. Forman, also national President of Sigma Tau, who will assist us in the installation of Kansas Gamma and the "merger" of the Sigma Tau group.

New Chapter Installations

Gentlemen:

The first Sigma Tau chapter to be "converted" and installed as a new Tau Beta Pi chapter will be Nebraska Alpha at the University of Nebraska. The installation will be conducted on the campus on January 26, 1974 by a team of officials including George Palo, President George Forman of Sigma Tau, Secretary-Treasurer Phil Colbert of Sigma Tau, and me.

The Nebraska chapter of Sigma Tau is its "parent" chapter, where Sigma Tau was founded in 1904. The Sigma Tau officers had asked that it be the first of the "conversions" and "mergers."

I suggest that the students of the Nebraska group would appreciate a note of congratulations and welcome to Tau Beta Pi from any of our national officials who might care to write to their president. He is:

Mr. Mark L. Riveland
540 Wedgewood Drive
Lincoln, Nebraska 68510

On the following day, January 27, George Palo and I, with assistance from Professor George Forman, will install our own new Kansas Gamma chapter at Kansas State University. In the same ceremonies, we shall also "merge" the old Sigma Tau chapter at Kansas State into our new Kansas Gamma chapter.

You might want to write brief notes of congratulations and welcome to the two student presidents there, as follows:

Mr. John R. Schlup (President of Kansas Gamma
1919 Hunting of Tau Beta Pi)
Manhattan, Kansas 66502

Mr. John D. Wilson (President of the Sigma Tau
chapter.)

Department of Applied Mechanics
Seaton Hall
Kansas State University
Manhattan, Kansas 66502

I know that congratulatory messages on such special occasions as these are deeply appreciated by the students, and they help establish good relations between the local group and the national organization. Your messages to these boys can be very brief; it is the idea that counts, that you care.

Sincerely yours,

Robert H. Nagel

Dear John:

Your January 10 letter has been waiting for my return from a Tau Beta Pi trip, but the extra Catalog Cards you requested were air mailed to you immediately.

I telephoned Dr. Tillman this morning to correct what I think is a wrong understanding on your parts about the formal initiation ceremony on January 27. I now repeat what I said to him: There will be only one Tau Beta Pi initiation ceremony conducted on your campus on January 27. In that single hour-long ceremony we shall initiate all Tau Beta Gamma and all Sigma Tau people who are qualified for Tau Beta Pi membership. So, we want your Sigma Tau people to show up at 3 o'clock for initiation, along with your Tau Beta Gamma people.

After the formal initiation ceremony of everybody, we shall conduct a brief Tau Beta Pi chapter installation ceremony and a Sigma Tau-Tau Beta Pi merger ceremony. This second set of ceremonies will take no more than 15 minutes and will follow immediately and in the same room^{at} the conclusion of the one initiation ceremony.

I think I may well have been responsible for some of the misunderstanding on these details. Yours is the first installation and Sigma Tau merger function we have ever tried, and I was not sure in my mind until recently how the ceremonies should be arranged. But I am sure now. And I couldn't give you specific instructions until very recently because we did not know whether the Sigma Tau merger would be ratified by our chapters. When it finally was, everybody was gone for their holidays, and I sat here making mechanical decisions like mad, in my beautiful isolation!

On your banquet program, please add president George P. Palo of Tau Beta Pi who will want to say a few words -- and I mean a very few words -- along with Professor George W. Forman and myself. The main speech of the evening will be given by President McCain.

I do not anticipate any other international officers of Tau Beta Pi or Sigma Tau at your initiation-installation-merger-banquet, besides Palo, Forman, and me. And we all insist on speaking!

Sincerely yours,

Dear Mr. Nagel,
I'm sorry about not getting
some of this information to
you a little sooner, but a lot
of it was not available until
recently.

We will mail the Sigma

as possible. I asked Sigma Tau
for a membership list before
vacation, but they were unable
to get it to me in time. I
will mail this information to
you within one week or ten
days, as soon as I can after
the Sigma Tau representatives
return to campus.

The schedule for the 27th is
as follows:

- 1) 3 o'clock: members meet
at all-faiths chapel on campus
for Tau Beta Pi installation
- 2) after this installation
(~ 4 o'clock) we will have the
Sigma Tau initiation.
- 3) 6 o'clock: social hour
at Cavalier Club before dinner.
- 4) 7 o'clock: dinner.

We have you and Dr. Forman
addressing the group with President
McCain of Kansas State as the
guest speaker. We would
appreciate a "head count" of
those members of your group
who will be attending. If
President Fals would care to
say a few words, let me
know and I will see that he
~~is made~~ has the opportunity.

We happen to be low
in catalogue cards; if you could
send about 200 to our permanent

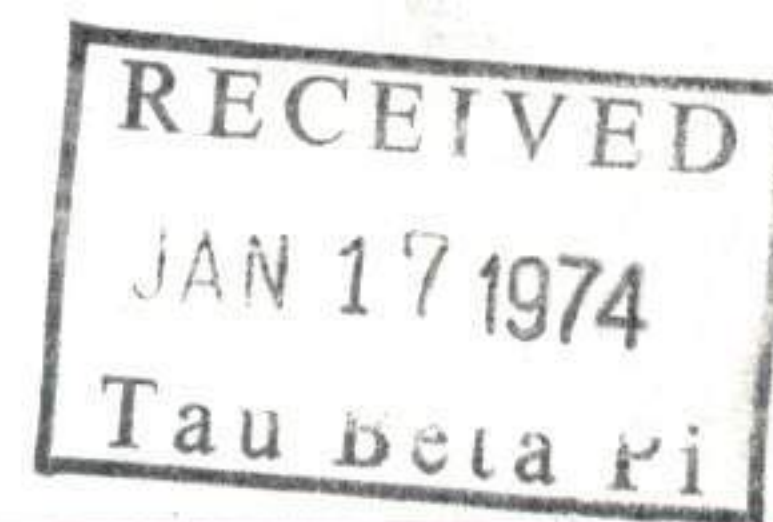

address, it will be greatly appreciated.

I am glad to see that the merger was approved. Thank you for the copies of the letters sent to our Sigma Tau chapter; it will help make the transition much easier. I'm sure this is a healthy move for both organizations and the members at K-State are looking forward to working together as one organization.

The Tau Beta Pi events last Sunday went off extremely well, thanks to the good preparations both of you made, and on very short notice. It is a great pleasure to have Kansas Gamma in our family of chapters and to have it augmented by all those fine Sigma Tau people. Many thanks to both of you for your hard work.

It occurred to me coming home on the airplane that Professor Lindly ought to have some official place in Kansas Gamma. His help could be not only very valuable but necessary in bringing about the complete transfer of Sigma Tau records, finances, land (!), etc. Why not add him to your chapter's Advisory Board when you hold that new election in February? Several chapters have five or more advisors. I have always read the rules as stating that ~~a~~ ^a chapter may have no less than four. Or elect him faculty treasurer. Keep him active and interested at all costs!

I have the happiest memories of Kansas Gamma!

Enclosed you will find the catalog cards for the people initiated at Manhattan on January 27, 1974. The names have been listed on the enclosed pages according to whether the people need keys, certificates, both or none at all. The lists should be self-explanatory.

A card is enclosed for Alan D. Jackson. Apparently, there was a misunderstanding in that he did not receive his key, but it was one of the unclaimed keys that were returned to the national office. We have a certificate for him and we will be able to forward the key to him if it is included with this shipment.

Give me the proper class year designations for the above six people, please, and their keys and certificates will also be ordered.

Returned to you herewith is Alan D. Jackson's engraved key.

I am quite certain that my national office records are in complete agreement with yours now. But I'll be glad to have your Reports of Final Action so that I can complete my membership records and, finally, confirm that all records are complete and accurate. Many thanks to you, Eric.

Dear Eric:

I hadn't responded to your letters of February 17 and 21, along with your Report of Final Action, because I was hoping to get the Sigma Tau reports from John Wilson which would enable me to straighten out my records.

You ask if there is any confusion about the lists. Frankly, yes, we are confused. According to the records I brought home from Manhattan, we initiated a total of 90 members on January 27. I think only 23 of these are "regular" Tau Beta Pi initiates and the balance of them are former Sigma Tau people. But I cannot be certain without the Sigma Tau reports in hand.

We have processed your Tau Beta Pi Report of Final Action and have charged a total of 23 Tau Beta Pi initiation fees to your chapter account, per the enclosed acknowledgement form. This may be incorrect, however, for the reasons stated.

It would be most helpful if John could prepare and send those Sigma Tau reports to me. In addition, if you are able to do so, a list of the regular Tau Beta Pi initiates, according to your records, would be most helpful. I don't want to make any goofs in my records and I don't want to charge Kansas Gamma erroneously for initiation fees.

You indicate that several alumni who missed the initiation "will be most likely initiated at other universities." Do you want my office to proceed with arrangements for the initiation of these alumni? I will hold up doing anything until you respond.

Finally, when we get the Tau Beta Pi versus Sigma Tau initiates straightened out, my office will compile a list of postponed electees, according to our records, so that none of them will be overlooked at future initiations. O.K.? Many thanks, Eric.

Dear Dr. Tillman:

Mr. Nagel is out of the office on still another Tau Beta Pi business trip, so I am replying to your letter of March 26.

When we spoke on the phone the other day, I believe I answered your question but I should like to put it in writing. I checked with Mr. Nagel and he confirmed that the decision had been made that student members of Sigma Tau could be initiated into Tau Beta Pi during this academic year without further payment of fees. In other words, their initiation fees will be charged to Sigma Tau headquarters. All the chapter has to do is tell us who will be initiated and give us the proper date of initiation, of course, so that membership certificates can be ordered properly. If we have possession of engraved keys for any one who will be initiated, we will routinely return them to the chapter.

Sincerely yours,

Dear Eric:

Thank you for your letter of March 26. I am glad your reply is late because I am now able to respond properly to you.

When I wrote to you on February 28, we had only the Tau Beta Pi Reports of Final Action, but not the Sigma Tau reports. That is why I told you that we had charged a total of 23 initiation fees to your chapter account.

With the receipt of the Sigma Tau reports, we have revised the records and have removed five of the original initiation fees charged to your account erroneously. The total now stands at 18 initiation fees charged; but your letter says you should be charged for 20 regular Tau Beta Pi initiates.

Here is my list of the people for whom we have charged Tau Beta Pi initiation fees to Kansas Gamma's chapter account:

Alumni

John Andrew Kramer	'72	Sadek El-Magboub	'73
Larry Carl Schroeder	'71	Janet Elaine Hull	'73
Stephen Martin Brooks	'73	Kim Edward Myers	'73

Students

Ray Alan Dilts	'74	Everett Ray Ramer	'74
Wayne Alan Duryee	'74	Steven Dale Sandberg	'75
Donald J. Glaser	'74	Daniel Lee Saucerman	'74
David Orville Johnson	'75	Eric Wayne Schoeff	'74
Edwin Joe McGuire	'74	Dennis A. Stephen	'75
Norman Richard Michal	'75	John Barry Whitley	'74

14

Mr. Eric W. Schoeff

April 2, 1974

You will note that my list disagrees with yours in the following respects:

1. You list William C. Flanders and Mark Keast. The Report of Final Action indicates that these two electees refused membership.
2. You list Alan D. Jackson but my records indicate that he is a member of Sigma Tau and we have therefore included him with the Sigma Tau initiates.
3. Your list does not include Ray A. Dilts. But he is clearly marked on the Tau Beta Pi Report of Final Action as having been initiated.

Would you please check my list against your records and then come back at me again if you still disagree. The above 18 people are the ones for whom we have charged Tau Beta Pi initiation fees to your chapter. You had a total of 84 initiates on January 27 and the balance of the initiation fees, 76, will be charged to Sigma Tau headquarters. I will, of course, expect you to confirm or deny all of the above statements because I want to keep the records accurately.

Yes, John Schlup has contacted me concerning the initiation of Kansas Gamma alumni by other chapters. We are taking care of them in our routine fashion and will keep John posted by means of copies of our form letters to these people.

May I ask a favor of you, please: We have somehow misplaced the Catalog Card we got for Donald J. Glasser, class of 1974. I know we had it when we processed our records but it has disappeared. Would it be possible for you to see Don and get him to fill out another Catalog Card for me, please? Or, if it would be easier, perhaps you could just copy one for me from the one you have in your chapter files. Many thanks, Eric.

Sincerely yours,

Robert H. Nagel

Flanders and Mark Keast, alumni, were initiated on January 27, 1974, and our chapter should be charged for them. Apparently, I made an error on the Report of Final Action, as both of these men did accept membership. Please correct this error on the Report.

Dear Bob,

The Kansas Gamma Chapter of Tau Beta Pi has received two items which contain mistakes. I believe that you have been contacted by phone by Dr. Frank Tillman about these items.

The first is the certificate of Hassan Pirasteh Far, Class of 1974, Initiation date Jan. 27, 1974. He should receive a Charter Member Certificate. The second is the bent pin of Karl Edward Stickley, Class of 1975, Initiation date Jan. 27, 1974, which has a misspelled name. The above two items are being sent back under separate cover. A prompt correction of these two items would be appreciated. Please send them to the following address.

Mr. Karl E. Stickley

Dear Karl:

I have your letter of April 30 and the Kansas Gamma reports. Don't apologize for your having sent the reports in "deviant" fashion because I fully understand that, being a brand new chapter, it is difficult for you to get into the swing of things. Furthermore, you have accomplished two initiations this spring and I know how much work you and your fellow officers have put into it.

We had earlier acknowledged a portion of the Reports of Final Action for your April 21 initiation and enclosed herewith are revised acknowledgement forms for your regular Tau Beta Pi initiates along with your "left over" Sigma Tau initiates. If the acknowledgement forms disagree with your chapter records, please be sure to tell me about it.

The only problem with any of your reports is the fact that you indicate that Kansas Gamma elected Professor Donald Ray Hummels as an eminent engineer, under Section 6(a). But this cannot be because Professor Hummels did not receive his B.S. degree more than 10 years ago. Furthermore, reports in my office indicate that he was eligible as an undergraduate at Arizona State University and that he was offered membership by Arizona Beta but he refused on two occasions for lack of interest. The facts make him come under the eligibility provisions of Constitution Article VIII, Section 5(c). Since he is already initiated, however, no real harm has been done but I wanted to explain the situation to you. Professor Hummels is the one alumnus initiate listed under Section 5 on the Report of Final Action Acknowledgement form. This sort of thing is exactly the reason why we ask for Reports of Eligibility in advance of chapter elections, so that my office can judge the technical eligibility of candidates for membership. O.K.?

Please note that we must have Hermann Donnert's B.S. degree year and institution. Your report lists only that he got his Ph.D. in 1951 from the University of Innsbruck, but for ordering his Tau Beta Pi key and certificate, we need his B.S. class year and institution. All other keys and certificates have been ordered for delivery to Dr. Tillman.

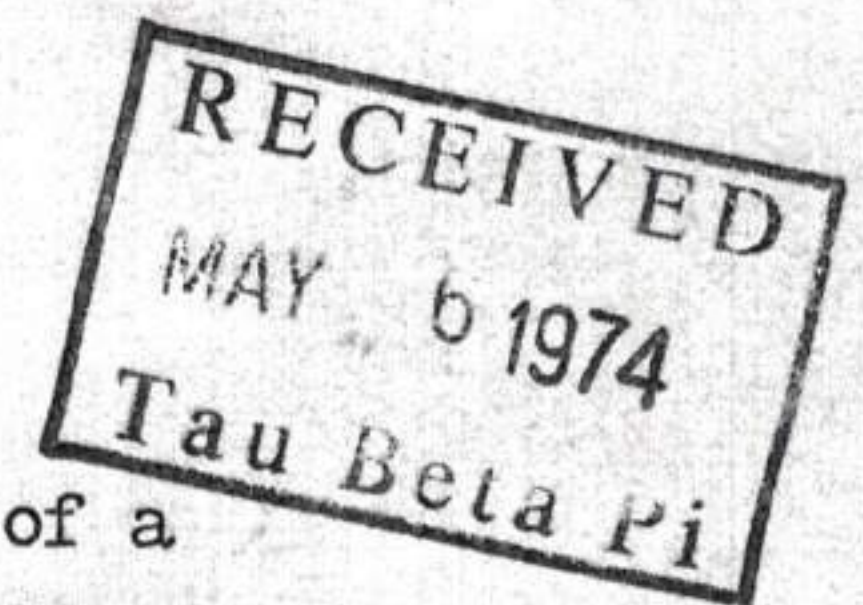

Again, my thanks to you, Karl, for all of your good work.

Sincerely yours,

Robert H. Nagel

Dear Mr. Nagel,

Owing in part to confusion related to the formation of a new chapter, the necessity of having a later date for initiation than desired, the lack of suitable election materials, and just plain general confusion, our election results are being sent to you in a rather deviant fashion. It is our hope that you will be able to process these forms without too much consternation. If you feel anything is amiss, we would appreciate any advise, admonition, or request that you feel is appropriate.

Again, I apologize for the lag in our communications with the national office and for the failure to provide the proper forms at the proper times. It is my sincere belief that our problems have been straightened out, at least to our understanding of procedure. Thank you for your understanding and cooperation.

Dear Alan:

Thank you for both of your letters of May 3.

First, to answer your question concerning Robert Farmer, we shall keep him on your chapter's Postponed Initiations list. He can be initiated at any time in the future (as a Sigma Tau member with no initiation fee) either by Kansas Gamma or by another chapter. All I will need from you next fall is Farmer's current mailing address, if he is to be initiated for you by another chapter, so that I can proceed with the necessary arrangements. If he stays close enough to Manhattan to return to your chapter for initiation, all you will need to do is indicate on the postponed list (which will be sent to you early next fall) that he will be initiated.

Concerning your Annual Chapter Survey; since yours is a brand new chapter, it is not absolutely essential that you submit a Survey form this year. However, there are some portions of the form which are applicable in your case, so why don't you just fill it out to the best of your ability. In addition, we should be interested in your service project which aided the Boy Scouts. This is the sort of thing we want to hear about so that other chapters which are looking for projects can learn about it. But, I repeat, if you prefer not to send a Survey form this spring, it is perfectly O.K.

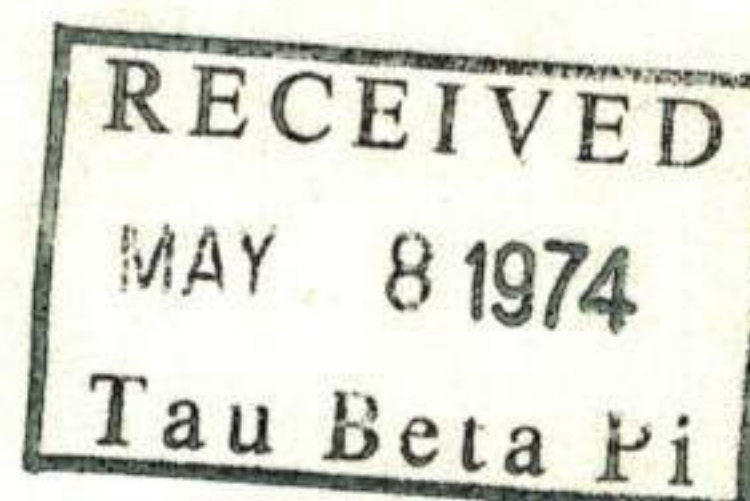

Finally, Karl Stickley has sent all of the necessary reports for your April 21 initiation and we have acknowledged them to him.

Your summer address list arrived in today's mail, thank you. Also received was your Convention Credentials form listing you as Kansas Gamma's official delegate. Excellent! I can promise you that you will derive much pleasure and "presidential education" by your attendance at the Convention. I look forward to seeing you there next September.

Dear Mr. Nagel;

Having received your letter reminding the chapter of the necessary items to be sent to the National Office, I have come across a slight problem. Our Kansas State Gamma chapter has only been in existence since January 27 of this year. In reading the information contained in the President's book regarding the Annual Chapter Survey, it is a year end report that serves as a concise guide to the next year's officers. However, since this group consists of myself and the other new officers of the newly formed chapter, I do not see how we can send in an Annual Chapter Survey since we are just now beginning the first year.

We have completed a service project which aided Boys Scouts in obtaining merit badges and did hold an initiation this spring.

Concerning the initiation, we held it late and for that reason, some of our forms have come to your office in the recent past. Also, summer addresses for members are now on the way. These were delayed because we wanted to make a complete list including the new initiates.

Thank you for your understanding concerning our problems as a new chapter. Also, if I am in error concerning the Annual Chapter Survey, please inform me as to what I need to do and I will make the corrections. Thank you for your time.

As you are aware by now, our Kansas State Gamma Chapter recently held our spring initiation. A graduating senior, Robert Farmer, who was a member of Sigma Tau, missed our initiation. He would like to become a member of Tau Beta Pi and will therefore need to be initiated next fall. He was not initiated this spring because of a confusion in time schedules. We would like to have him come in next fall as a Sigma Tau member with no initiation fee. He will probably need to be initiated by another chapter for us due to his graduation.

Please let me know what information I need to send to you concerning this matter regarding his initiation next fall.

Dear Russell:

Thank you for your letter of May 4 and your check for \$123.56 in payment of our April 30 statement for Kansas Gamma.

Just yesterday, following receipt of the Reports of your April 21 initiation, we mailed a statement to you at your Overland Park address. Here is another statement, superseding the one mailed yesterday, to reflect your payment just received. In case you are wondering about the two separate entries for your April 21 initiation, Karl Stickley sent us the reports for your undergraduate initiates and your alumnus initiates at separate times. (He apologized for sending the reports in such "deviant" fashion, but it is perfectly O.K. with us.)

In response to your question concerning your Convention assessment, you will be assessed only for your Tau Beta Pi initiates for whom initiation fees are charged to your account. In other words, you will not be assessed for your Sigma Tau initiates. According to the record, you had 57 "regular" Tau Beta Pi initiates for whom you will be assessed at \$5.00 each. Does this agree with your records? Did you collect 57 Tau Beta Pi initiation fees? If your records do not agree with ours, please be sure to let me know. Many thanks.

Dear Russell:

Many thanks for your note of May 14 and your check for \$735.00 in payment of Kansas Gamma's chapter account with the national office.

The only light I can shed on the discrepancy in the number of initiation fees collected is that, perhaps, some of the people to be initiated by other chapters could enter into the picture. I have no knowledge of whether or not any of them have paid their chapter initiation fee to you.

Looking over your statement, I come up with a total of 57 Tau Beta Pi initiation fees charged to your account. I have a list of 12 Kansas Gamma electees to be initiated by other chapter, as follows:

James Leach	Richard Ray
Darrell Sahatka	David Downtain
Ronald C. Holmes	Richard Dotson
Michael Pacey	Mark Hahn
Richard Hammond	Riley Cook
David Kolarik	John Meiners

If the above does not help you correct your records, perhaps you would like for me to send you a complete list of the names of the 57 members for whom we have charged fees to your account. I'll be glad to help you further in any way I can.

it is probably from the original initiation,

Dear Karl:

Mr. Nagel is out of the office this week attending the Tau Beta Pi Convention so please let me answer the questions in your letter of September 23.

First, your Report of Eligibility is acknowledged per the enclosed form. Please note that you did not indicate in the space provided on the report form the number of sets of electees' materials you will need. Tell us what you want and we'll happily send it to you.

We fully understand that you cannot give us full middle names on the report forms. This is perfectly O.K. and the carbon set of forms for the Report of Election and Report of Final Action will suffice nicely. The only place we actually require full middle names is on the Catalog Cards because we order keys and certificates directly from them. The procedure you are using now is entirely satisfactory for our purposes.

To answer your specific question concerning Donna D. Kottwitz who was married and has changed her name to Donna D. Reed, I believe you should change your chapter records to her new name. We will change the national office records -- her Catalog Card and other membership data -- to show that she is now Donna D. Reed and her membership will henceforth be carried in the name of Reed.

Attention Mr. Robert Nagel:

Dear Bob,

Please find enclosed the report of eligibility for the Kansas Gamma Chapter. One problem has come up, however, concerning the report of election form specification in Bylaw V, 5.03(d)3. Owing to the rather backwards way in which we accomplished things last year, this problem did not surface until now. At Kansas State University, with the omnipresent IBM 360 looking after us, a student's full middle name may not fit into the allotted space in the computer's memory. Therefore, in some cases, it is not until the catalog card is filled out that we know the middle name. I would appreciate a suggestion as to procedure, even if it means not using the nice carbonated copied forms. (I could guess at most of them from the portion that is given, or call those people who are not members, but I didn't think either of these two methods was quite ethical). Thank you very much for all the help.

Your initiation cannot be completed until I hear from you. When I do, I shall send the necessary membership forms to the chapter to be filled out by you at the time of the ceremony.

Won't you please communicate with the president of that chapter, whose name and address are given below, to learn the precise time and place of their ceremony? Your initiation fee should be paid to your "home" chapter before you are initiated.

Each candidate for membership is required to read the Constitution and Bylaws of The Tau Beta Pi Association before being initiated. A copy of the Constitution and Bylaws is enclosed along with additional material about the Association which we believe you will find interesting.

Sincerely yours,

Robert H. Nagel

Dear Karl:

Your Report of Election and Catalog Cards are acknowledged herewith, per our Official Initiation Approval form. Please note that we need a Catalog Card for Kendall Edward Scheer whose initiation was postponed last spring.

O.K., in response to your letter of October 17, we have corrected your Report of Eligibility to show that Kent C. Cooper is not presently a member. In addition, a package of 10 paperweight Bent castings is going to you today under separate cover.

I have checked the records and find that we ordered a membership certificate routinely for Carl Andreason last spring. Something must have happened to it. But we have now ordered a replacement of Mr. Andreason's certificate for delivery directly to you from Balfour. Your chapter account is being charged \$1.50 for the replacement.

Yes, we did receive your chapter's Active Address List on September 26, the same day we got your Report of Eligibility. However, it takes a couple of days to process the address lists and my girls used the address then on the records for you. We have it right now, Karl, thank you.

Sincerely yours,

Dear Bob,

Please find enclosed the Report of Election, Catalog Cards, Postponed Initiations, and Term Date Questionnaire. On the Report of Eligibility sent in previously, Kent C. Cooper was inadvertently shown as being a member. This mistake has been corrected. I would also like to place an order for ten (10) bronze bents at \$2.00 / bent.

One other matter has come to my attention that dates back prior to my taking office. I have therefore been unable to resolve the particulars in the case, but it seems that one of our members, Carl Andreason, has never been given a certificate. According to John Schlup, president of our chapter at the time, there was some mix up due to Mr. Andreason's being out on the Industrial Co-op Program (alternating semesters of work and study). Whatever the problem, Mr. Andreason does have a key but is lacking a certificate. I would appreciate it if you would take what action you deem advisable. Thank you

Sincerely Yours

P.S. Did you receive the Gamma Chapter's fall semester's address report? I ask this because the letter acknowledging our Report of Eligibility had to travel a long way to eventually reach me. If it was not received, my address is : 1102 N. 11th., Manhattan,

Dear Bob,

Please find enclosed information (report of eligibility and election) on Prof. L.T. Fan, as referred to in our telephone conversation of Nov. 1, 1974.

Also, regarding your letter to our President, Alan Sylvester, concerning Richard Ray of 8516 W. 55th Terrace, Shawnee Mission, Kansas (letter dated Oct. 17, 1974), there seems to be a mix-up. You stated that Mr. Ray's bent key was enclosed in the letter, but said key could not be found. Please investigate the matter from your end, thank you.

One final note. Mr. Kendall E. Scheer has now informed us that he does not wish to join Tau Beta Pi. You had earlier requested a card for him, but he should now be dropped from our lists.

Dear Karl:

In response to your Reports on Professor Fan, enclosed herewith are our Eligibility Acknowledgement form along with Official Approval for Professor Fan's initiation. His key and membership certificate have now been ordered but, as I am sure you understand, will not reach you for at least a couple of weeks.

I have searched my files and simply cannot understand what happened to Richard Ray's key. Was the envelope torn open and the key lost out, do you suppose? In any event, I do not have possession of it any longer. But the problem is not great because, if Mr. Ray is initiated on November 17, you will of course tell me and I shall reorder his key at the same time that we order his membership certificate. O.K.?

Thanks for telling me that we no longer need a Catalog Card for Kendall Scheer who has now refused membership. Just mark him as a refusal on your Report of Final Action, please.

Dear Bob,

I thought that I would check with you to make sure that it is all right for our Kansas Gamma chapter to hold election of officers in January 1975. The present set of officers have held office since February of 1974, due to the establishment of our chapter at that time. We feel that for an effective transfer of duties and to get the new officers properly oriented, we would like to have our elections the first part of January. Please let me know if this is okay with the national office. Before January 10, 1975, my address will be 333 W. Claflin, Salina, Kansas. When the semester resumes, my address will again be in Manhattan.

Dear Russell:

Many thanks for your note of January 31 along with your check for \$97.97 in payment of Kansas Gamma's account with the national office. This payment brings your account to a zero balance. However, when I was checking into the matter, I noted that we had not yet charged the initiation fees for Kansas Gamma's fall initiates. Checking further, I learn that we have not yet received the Report of Final Action for your November 17 initiation -- I could hardly believe it!

By way of a copy of this letter to him, I am asking Alan to prepare that Report of Final Action and send it to me promptly. The Bylaws say I should fine your chapter for late submission of the report, but I don't want to do that. I must have the Report of Final Action, however, to complete my membership records on the people initiated last November, as I am sure you both understand. When the report reaches me, we shall routinely charge the proper number of initiation fees to Kansas Gamma's account and a statement will be sent to you at the end of the month.

Please see the enclosed note just received from Mark E. Keast, Kansas Gamma '72. According to my records, Mr. Keast's key and certificate were ordered routinely along with all of the others for Kansas Gamma's January 27, 1974 initiation. These materials were delivered to John Schlup, president of the chapter at that time. Obviously, John did not deliver the keys and certificates to some of the alumni as he should have done.

May I ask you, please, to check the chapter files and see if you can locate a key engraved KEAST, Kansas Gamma, '72 and a membership certificate engrossed for Mark Elliott Keast bearing the January 27, 1974 initiation date. If you locate these materials please mail them directly to Mr. Keast at the address on his letterhead.

However, if you do not have access to the chapter files this summer or are unable to locate this particular key and certificate, please tell me so that duplicates can be ordered. I have apologized to Mr. Keast on behalf of Kansas Gamma and I have promised him that I would follow through to a proper conclusion by delivering a Tau Beta Pi key and certificate to him. Dear Mr. Nagel:

I spoke with you on Friday, October 3 concerning the procedure necessary to allow students from Architectural Engineering to be eligible for membership in our chapter. This curriculum is fully recognized as a part of the College of Engineering here at Kansas State University. They are eligible for campus engineering honoraries and societies such as Steel Ring.

Discussion at our last chapter meeting made it apparent that our members feel that Architectural Engineering students should be eligible for election into Tau Beta Pi. When so moved, the chapter vote was unanimous (Thursday, October 9). The advisory board also voted unanimously to include Architectural Engineering when considering those eligible for election to Tau Beta Pi. (Wednesday, October 8)

In light of these facts, I would like to request your permission to include Architectural Engineering when I determine the list of those eligible for Tau Beta Pi. We feel there are several Architectural Engineering students worthy of election this semester, and would therefore appreciate a speedy reply.

In response to your letter of October 10 concerning the eligibility of architectural engineering students for Tau Beta Pi, herewith is approval for Kansas Gamma to include those students in your list of scholastically eligible candidates.

You have told me that your chapter membership voted unanimously to admit architectural engineering students; you have also told me that your advisory board vote was unanimous and this fulfills the provisions of Constitution Article VIII, Section 2.

I am therefore happy to exercise the authority of the Executive Council and grant Kansas Gamma permission to include architectural engineering as an eligible curriculum for Tau Beta Pi.

Dear John:

I have your October 29 letter and I am delighted to hear from you again. You don't have to tell me who you are! I remember very well. But I don't think I recalled that you were in graduate school at Cal Tech. Fine!

The problem of Convention financing is troublesome in just about every organization. It was no problem in Tau Beta Pi until the last couple of years. But now that travel costs have risen so fast, we have difficulty in balancing our annual Convention budget. We are resorting to asking host chapters to try to raise some subsidy money from local industrial firms, and we are going to ask our alumnus members to contribute to the Convention Fund.

We can't even balance our Convention budget when holding the national meeting in a "centroidal" location. The Cincinnati Convention of Tau Beta Pi just two weeks ago will probably result in a \$7,000 deficit for us. Next fall's Convention at Texas A & M will cause at least a \$17,000 imbalance between income and delegate expenses.

But until recently, the Tau Beta Pi system of financing Conventions worked well, so long as we held most Conventions at a "centroidal" location where total delegate miles of travel was minimal. An occasional California Convention was possible by building up surpluses in the Convention Fund over several years of "centroidal" sites, and by asking industry to help out a little. But that day is gone forever, I'm afraid, and we have to search for new income sources for Conventions.

In any event, the system Tau Beta Pi has used for over 60 years is as follows: Each new initiate is charged a sum of money with his national initiation fee (whether he knew it or not) which was then set aside in a national Convention Fund. The fee has gone up slowly over the years and is now \$6.00 per initiate. We don't think it ought to go much higher because it will "freeze out" student electees who have to consider the total cost of membership in Tau Beta Pi.

John R. Schlup

November 3, 1975

Every chapter in Tau Beta Pi is entitled to send one student delegate to each annual Convention. That delegate's total Convention trip expenses, including airplanes, hotel room, food, everything, is paid for out of the Convention Fund. As you indicate, this has assured Tau Beta Pi of almost one hundred per cent chapter representation at every Convention. The only reason a chapter fails to send a delegate some year is because everybody in the chapter wound up in the hospital, or had to take a required examination back on campus, or similar catastrophe. So we achieve just about full chapter representation at every Convention by paying the delegate's full trip expenses.

Now, the mechanics of handling this Convention Fund revenue and expense business is as follows: Every chapter collects from every one of its initiates in a year the \$6.00 Convention assessment. It keeps that money in its own treasury until the following fall's Conventions. Then it gives cash to its Convention delegate so that he can buy his plane tickets, pay for his hotel room and food, etc. When the delegate returns home from the Convention, he reports to me his total trip expenses and I credit his chapter account in the national office with that amount. Simultaneously, I charge his chapter account for the total Convention assessment for the previous year, at the rate of \$6.00 per person initiated in the previous year. The result is that the chapter owes me the difference between that credit and that charge, or I owe the chapter. But it is important to note that we have left the money collected from each initiate for the Convention Fund in the chapter until it is needed to pay the delegate's trip expenses the following fall. Only after the next Convention do we reconcile the charges and credits for the delegate's expenses and his chapter's assessment.

Of course, we put some constraints on delegate travel expenses -- we insist on ~~air coach~~ rather than first class, and we place ceilings on en-route meals, automobile mileage allowance in case the delegate drives his car, etc.

All of the above ideas are stated formally in Tau Beta Pi national Bylaw I, Sections 1.04, 1.05, and 1.06. A copy of the Constitution and Bylaws Booklet is enclosed. See pages 22 and 23.

Glad to hear from you again. I hope I may have helped your fraternity solve its Convention attendance problems, but I warn you that rapidly rising costs will continue to plague all of us, no matter how good our financial system is.

Very best regards.

Sincerely yours,

Robert H. Nagel

Dear Mr. Nagel,

My name is John Schlap. I was chapter president when Kansas Γ received their charter. I am currently a graduate student at the California Institute of Technology. My current address is:

John R. Schlap

Braun House, Rm. #202

Cal Tech

Pasadena, Calif. 91126

I have a favor to ask of you. My fraternity has been looking into ways to balance the expenses of chapters traveling to our national conclave. Attendance by chapters has been poor in the past, and finances are the traditional excuse. Could

you please provide me
with a detailed explanation
of how the TBT system
works? I would like to
get this information to our
National Executive Council.

The discussions I have had
with our national office have
been favorable, and it is
felt that such a system
might go a long way towards
solving some of our problems
and frustrations.

Thank you for your
assistance.

Sincerely,
John R. Schlep

DEAR MR NAGEL:

DUE TO POOR COMMUNICATION BETWEEN OUR VICE-PRESIDENT AND MYSELF, WE WILL NEED FOR SEVERAL OF OUR FALL INITIATES TO TAKE OUT LOANS FROM THE NATIONAL OFFICE TO COVER THE INITIATION FEE. IN THE PAST, OUR CHAPTER HAS FINANCED LOANS FOR INITIATION. HOWEVER, THIS YEAR WE HAVE HAD 12 REQUESTS WHICH IS MORE THAN WE CAN FINANCE. I FAILED TO MAKE CLEAR TO OUR VICE-PRESIDENT IN SEPTEMBER THAT WE WOULD BE ABLE TO FINANCE ONLY ONE OR TWO SUCH LOANS.

PLEASE SEND THE NECESSARY INFORMATION AND DOCUMENTS TO OBTAIN THESE LOANS.

I APOLIGIZE FOR MAKING THIS REQUEST AT SUCH A LATE DATE!

Dear Frank:

In response to your letter of February 4, a package is going to you today containing 45 complete sets of electees' materials (Constitution booklets, Information booklets, Essay rules, etc.). Along with the 45 complete sets, we are sending 30 extra Constitution and Bylaws booklets. This should take care of your needs nicely.

The reason no materials were sent for last fall's initiates is that they were not ordered from my office. There is a space on the bottom of the Report of Eligibility in which to tell me the number of sets of materials needed. But Gary inserted an X in that space which meant to us that the chapter had enough materials on hand and didn't want us to send any more. I mention this by way of explanation and also to tell Gary that he must let us know what he needs for this spring's electees.

In looking at the record, I find that we still don't have the Report of Final Action for Kansas Gamma's November 16 initiation! The Bylaws tell me that I should levy a fine against the chapter for such dilatoriness. But it's not the money we want, it's the reports. Gary, please send that Report of Final Action as promptly as possible so that our membership records on the people you initiated last November can be completed. Many thanks.

Sincerely yours,

Robert H. Nagel

Ms. Kala Marietta

Dear Kala:

Many thanks for your March 1 letter which has just arrived, and even more thanks for Kansas Gamma's Report of Final Action for last fall's initiation. I'm sorry that the first report you sent to us went astray. We needed this report to make official the record of membership of all of Kansas Gamma's new people.

It is no great loss that the address changes for your chapter's active members cannot be found. We now have most of them spotted anyway.

Thanks for telling us that you have been succeeded as chapter corresponding secretary by Tom Beery. We are correcting our records right away.

On the Building Construction curriculum at Kansas State, the procedure for making that curriculum and students eligible for Tau Beta Pi is fairly simple. Please look at Constitution Article VIII, Sec. 2(a)-(e), on page 12, copy enclosed.

I gather that Building Construction is not ECPD accredited at Kansas State. If this is true, I should then say that subsection (a) is not applicable, but your people may want to argue this point and I'll certainly listen.

It appears to me that subsection (b) is applicable; and this would be the safer rule to follow anyway. Get at least three-fourths of the active members of your chapter to vote in favor of admitting Building Construction students to Tau Beta Pi, have your Advisory Board approve the chapter's action, and send me a brief statement to this effect. Then the Executive Council, through me, will act on the eligibility of the curriculum.

Although I am not absolutely sure, I believe that subsections (c), (d), and (e) are not applicable to the Building Construction curriculum at your school. But you ought to read those subsections to get the ideas in them.

Our formal acknowledgment of your fall term Final Action Report is enclosed to complete your records.

Sincerely yours,

Robert H. Nagel

It has recently ~~been~~ brought to my attention that you did not receive our Report of Final Action for last semester's initiation. As corresponding secretary, I mailed this report to you in late November. As I recall, some address corrections and other forms were also included. It was mailed in a large manilla envelope.

I am afraid the US Mail has failed us. Luckily, I copied this form for our files.

2

Gary and I have signed these forms again. Unfortunately, I have no copy of the address corrections. I hope these copies will set your files straight.

Tom Bezy is our new Kansas Gamma Chapter Corresponding Secretary. If I can be of further help to you regarding last semester's business, please let me know. My address is

Kala Marietta

Manhattan, Kansas 66502

My telephone number is

913-534-3337. I hope we can get all this straightened out soon.

Our chapter has raised a question again this semester that I discussed with you last semester. The Department of Building Construction has now been fully accepted into the College of Engineering. We would like to invite them to our chapter. Exactly what procedure must we use?

As it now stands, we are no longer an "all engineering" honorary and may lose Engineering Council funding. We feel that

4

Building Construction has a
rightful place in our chapter.
It is a topic of immediate
concern. If you would
send to me the possible
routes we might take to
include these people, I
will report it to our chapter.

Thank you for your
trouble.

I have been trying to reach both of you by phone without success. My purpose in calling was to try to get the Report of Final Action for Kansas Gamma's May 2 initiation. In spite of repeated reminders, that report still has not reached my office.

Tau Beta Pi's fiscal year ends on July 31 and I must complete all membership records by that date. According to your Report of Election, you expected to initiate 18 people on May 2 but, without the Report of Final Action, I do not know if all 18 electees showed up for initiation on May 2 and I am unable to complete my records accurately.

Enclosed to each of you is a copy of the Report of Election. I need to know which of the electees was actually initiated -- all of them? Will one of you either respond promptly by sending the Report of Final Action for my receipt prior to July 31. In lieu of that, will one of you please pick up the phone and call my office collect concerning this important matter. We simply must get the records cleaned up for Kansas Gamma as I am sure you understand.

Dear Jane:

Many thanks for your check for \$62.64 paying Kansas Gamma's chapter account in full.

You indicate that you have a bunch of unprocessed loansforms but I am not absolutely certain what you mean. Are the applications completely and properly filled out, with all of the necessary information, chapter officers' signatures, etc. and are they accompanied by signed promissory notes? If so, all you need to do is send the applications and promissory notes to my office for processing. On the other hand, depending on how long you have had the loan forms in your possession, you might want to contact each of the people to ascertain whether they still want to borrow the money from Tau Beta Pi.

Enclosed is a student loan information sheet which will help you further understand how the loan program operates. This information will probably be helpful to you in deciding what to do with the loan forms you have on hand.

Dear Phil:

Thanks for your letter of September 20 -- your apologies are accepted. Did Tom Beery resign under pressure because he failed in his secretarial responsibilities? Don't bother to answer this question. We are changing our records to indicate that Randall Groves has replaced Tom Beery as corresponding secretary.

Thanks also for telling me of the election of two new advisors, Professors Erickson and Williams. Here again, our records are being changed accordingly.

I don't quite understand your request that I send you "the balance our chapter has credited for Convention delegates expenses." Your Convention expenses haven't yet incurred, so I am unable now to credit them to your chapter account. Do you understand how our Convention Assessment/expenses plan works? Let me explain:

On November 1 we will charge the Convention Assessment at \$6.00 for each new member initiated by your chapter during the 1975-76 academic year. You initiated a total of 59 members, so your Convention Assessment will be \$354.00. Please look at the enclosed copy of your 1975-76 account sheet and see these postings as they were done a year ago.

Following along, when you return to Kansas after the Convention, you will send me your delegates expense report and I shall then credit your account for the total of your expenses. But I don't believe you will spend more than \$350.00 for the Convention, so your assessment verses expenses is likely to come out with a debit balance. Understand?

Perhaps what you are really saying to me is that your chapter treasury does not have enough money to advance to you for your expenses. If this is the case, please tell me and I shall happily make a loan to your chapter treasury.

Finally, enclosed is a stationery price list.

Sincerely yours,

Dear Frank:

I am glad to learn from your November 4 letter that there may be some interest at Kansas State in putting up a big Bent monument. I'll be glad to help you all I can -- with information, not physical labor!

Here is a copy of the January 1970 COUNCIL BULLETIN of Tau Beta Pi where we featured Bent monuments. All the ideas I have on the subject are stated in this little story.

Unfortunately, prices of the Bent monument have gone up because the price of bronze has risen. See the new prices list on page 8 of the enclosed October 1976 COUNCIL BULLETIN.

Delivery times from the foundry depend on the style ordered. Four weeks is about normal for an unassembled and unpolished Bent. But eight weeks is closer to right for the finished job including welding and polishing.

Very best regards.

Dear Dr. Tillman and Mr. Harden:

Greetings from the sunny Southwest! Despite K-State's shortcomings on the football field, I am happy to inform you that alumni enthusiasm, at least at Honeywell, has not diminished one bit. My foreign correspondents have kept me up-to-date regarding the KU pranksters' hill-painting, and I trust the glory of the "KS" is now restored.

As you may recall, Charlie Miller and I are plotting to beg \$50 donations from the Tau Beta Pi seniors of '76 in an effort to purchase a bronze Bent for the K-State campus. To that end we will be requesting donations from our fellow classmates in December. I have written Dean Rathbone requesting numerous bits of information, and perhaps together the three of you can assist us in our goal.

Please note

More specifically, I need to know pricings, delivery times, etc. for the Bent. I do not have any of this information and I wonder if you could obtain it from the national office. Installation of the Bent is also an undetermined problem. I have no idea how much it will cost, nor if we will be able to cover the expense. Perhaps the organization could donate the labor if the Dean can supply the materials . . . I would welcome your thoughts on the matter.

In order to get our requests mailed in early December we need this information from you by Thanksgiving. I know only too well how busy this time of year can be, but hope you can respond fairly soon.

Enclosed you will find a copy of the letter to Dean Rathbone. Thanks so much for your help.

Dear Ted:

Many thanks for your letter of January 22 and your check for \$619.00 as payment in full of Kansas Gamma's chapter account through December 31, 1976.

Yes, we knew that Jane Esser had been elected to succeed you as treasurer but I don't believe we had a proper mailing address for her so we appreciate your giving it to us now. Our records are being corrected accordingly and future financial matters for Kansas Gamma will be addressed directly to Jane.

Finally, our thanks to you for all of your good work as chapter treasurer, Ted. Your good efforts are sincerely appreciated.

Dear Mr. Nagel:

This is a brief informational letter to tie up some loose ends.

First, Steven Lynn Janssen was initiated on December 5, 1976. Second, our spring initiation is planned for April 17, 1977. Please make sure your records and the new initiates certificates show this date.

I was sent a letter containing a copy of the new informational brochure and some information concerning the National Convention. I apologize but these were mishandled and lost. Please send me another copy of that letter and its contents.

Finally, Forrest Seitz has decided not to go through initiation this semester due to time (not financial) conflicts. However, he does plan to participate next semester. Please take the proper steps with his records and materials. Do not hesitate to contact me if any more information is needed.

Sincerely,

Greg A. Tucker

Greg,

We have ordered all the keys and certificates in your letter that came with the Report of Final Action. The materials you ordered have been sent under separate cover.

We need to know a couple of things more, please.

1. Please return the attached copy of the Postponed List answering the question in the last paragraph below.

OK 2. Please be sure to let us know officially that Phil Jenkins was initiated on May 11. *We also need his catalog card -* April 12, 1977 *Rec'd 5/13/77*

Thank you very much for your good work.

Mr. Greg A. Tucker

Dear Greg:

Thanks for your March 31 letter concerning several Kansas Gamma chapter matters.

Doug Unruh had recently told us that Steven Janssen was initiated last December, so that record has been corrected. Doug (I think it was he) phoned and told us that your date of initiation had been changed to April 17, so the records have been changed accordingly. In addition, we notified Balfour to correct the date on the certificates and I think we told them in time. But if the certificates reach you with the former April 24 date, let me know and we'll reorder them.

Enclosed is another copy of the mailing about the new brochures and the 1977 Convention.

We have marked the record to show that Forrest Seitz will not be initiated. But you, please, be sure to indicate on the Report of Final Action that he is to be recorded as postponed. Keep his key for use next fall; destroy his membership certificate because a new one will be ordered when he is initiated.

Now, we have a couple of questions: As noted on the initiation approval form, three of your people did not give us class years on their catalog cards and we could not order their keys and certificates. They are -- Debra Sue Higgs, James Scalora, and John F. Sharp. Please send this information along with your Report of Final Action immediately after your initiation.

Next, we are not absolutely sure that we understand the postponed list you returned. Please see the enclosed copy -- we have cancelled the elections of the people so marked, but what about the other three people? Your Report of Eligibility has James M. Reilly marked as a member which, of course, he is not. Will any of these three, Garrett, Reilly, or Hertel, be initiated on April 17? You may answer by marking up the enclosed copy and returning it with your Report of Final Action. Many thanks, Greg.

Sincerely yours,

Robert H. Nagel

Mr. John K. Waterman

Stanford, California 94305

Dear John:

John Esser, Kansas Gamma treasurer, has just sent me your initiation-fee loan application for \$40.00. However, I am returning the application and promissory note to you for several reasons.

First, it is a little unusual for a member to apply for an initiation-fee loan two years after his initiation! Do I understand correctly that Kansas Gamma is trying to clear up some old unpaid initiation fees and that is the reason for your application now? I should appreciate having a brief statement from you to this effect, to substantiate approval of your loan.

In addition, we have found it necessary to "tighten up" on student loans and require that loan applications be submitted to my office by the borrower himself. The importance of this rule is to impress upon the borrower the fact that his indebtedness is directly to the national office, not his local chapter.

So, kindly send me the statement requested above and personally return your application and promissory note and I shall put your loan through for payment.

Sincerely yours,

Robert H. Nagel

Dear Jane:

I have returned John Waterman's loan application to him per the enclosed copy of my letter, for the reasons cited. Now I return Bamidele Solomon's loan application directly to you for yet another reason.

We cannot process Bamidele's loan because we do not yet have the Report of Final Action for Kansas Gamma's recent initiation. Therefore, Bamidele is not recorded as a member of Tau Beta Pi until that report reaches my office. Hopefully it will arrive soon.

As explained to John, we now require that loan applications come directly from the borrower, so please give Bamidele his application and promissory note and explain the circumstances to him, that is, that he must personally send it to my office.

Sorry for the trouble, but we feel that we must be more stringent with our student loan applicants in order to impress upon them the seriousness of their obligation to Tau Beta Pi. I am sure you understand.

Dear Vu:

We received your letter of November 30 concerning a loan of yours along with a check for \$41.20. We have no record in our office here concerning a Student Loan for you.

Perhaps, you filled out the necessary forms, gave them to the chapter treasurer in the fall of 1976, and assumed that he or she would send them to our office. Since we do not have any forms you do not owe the national office any money. Hence, I am returning your check.

However, you do probably owe Kansas Gamma the amount of your initiation fee. May I suggest that you contact the current treasurer of Kansas Gamma, Jane Esser, whose address is given below so that you may clear this up.

Thanks for your February 20 letter. Yes, I knew that you were working hard trying to clear up your loan problems. But your response of four out of thirteen isn't very good, is it? Hopefully, your second letter will generate better response.

Not knowing what addresses you are using for these "delinquents" I thought I would send you a list of the addresses as they appear on my records; perhaps they are different from yours and another letter to the addresses on the enclosed list might do the trick. Please note that we have no address for Sidney Hoobler, so we should appreciate your sending the address you are using for him.

It was most thoughtful of you to send the list of these people so that we will be cognizant of their negligence toward their financial responsibilities if they should decide to apply for a national student loan.

Thanks for telling us that Ann Kotwitz is Kansas Gamma's new treasurer. All future statements will be sent directly to her.

Thanks very much for your March 15 note and your \$35.00 check as payment in full for a life subscription to THE BENT. So that you don't miss any of the full treatment, one of our regular life subscription letters is enclosed. In addition, since you had \$5.20 credit remaining on your original 4-year subscription, enclosed is our refund check for this overpayment.

I am sorry to hear you say that you really know very little about Tau Beta Pi. Our initiation ritual is "secret," and is intended for members only. But information about Tau Beta Pi, its reasons for existence, and its operations and activities are not secret, but are available to all.

Did you not receive a packet of what we call electees' materials, consisting of a Constitution booklet, Information booklet, Engineering Ethics sheet, Essay Rules sheet, and Life Subscription card when you were first elected and accepted membership? These materials are enclosed herewith. I am not sending you, however, a copy of the initiation ritual and motto slip because these materials are intended for chapter use only, not for individuals. But didn't you undergo the initiation ritual and receive a motto slip when you were initiated last spring? This puzzles me.

Look over the enclosed materials and then, if you still want more information about Tau Beta Pi, I suggest that you get in touch with Kansas Gamma's president, Patrick P. Parke. In addition, an excellent idea would be for you to plan to attend the chapter's spring initiation of new members where you will hear the ritual performed once more. O.K.?

Dear Mr. Nagel:

Enclosed is the 1977-78 Financial Evaluation Report for the Kansas Gamma Chapter. I will be the chapter treasurer until December and my summer address is given on the report.

Since the Kansas Gamma Chapter does not have gross receipts of \$10,000 or more, I won't fill out an IRS Form 990. Am I correct in thinking that Kansas Gamma does not need to file any income tax form?

The chapter statement sent out in April has a charge of \$455.62 for a bent monument. A group of our alumni have organized a fund raising campaign to pay for this monument. The entire amount has not been collected at this time. I could pay part of the charge now or would you prefer to leave the entire \$455.62 on the chapter account? Please advise me on this matter.

Also, I need loan forms, promissory notes, and loan information sheets.

Thank you.

Dear Ann:

Many thanks for your May 3 letter and the Financial Evaluation Report for Kansas Gamma. I am pleased to note that your chapter's finances are in good shape!

You are absolutely correct -- since your chapter's gross receipts did not exceed \$20,000, you are not required to file IRS form 990. Looking at Kansas Gamma's account, I note that all initiation fees and other charges have been taken care of and, as you indicate, the balance due of \$455.62 is the charge for your Bent monument. It will be perfectly O.K. with me if you want to wait until the fund raising campaign brings in a sufficient amount to write a single check for the Bent monument charge. ~~Hopefully, however,~~ *represent you* let the balance stand for the time being. Hopefully, however, you will be able to pay the debt before our fiscal year ends on July 31. But if you see you can't pay it all by that date, perhaps it would be good to send partial payment along with a note of explanation, to satisfy Tau Beta Pi's auditor. O.K.?

Enclosed are several sets of student loan forms.

Dear Ann:

Thanks for hheeprompt submission of your Delegate's Expense Report which is acknowledged by way of the enclosed form letter.

In responce to your October 24 letter, no, there are no other Bents available. With the purchase of your big Bent monument you have everything there is! But you could still erect your monument and establish an "area" as some other Tau Beta Pi chapters have done. Please see the enclosed project material showing what Ohio Iota did. They established an azea around their Bent monument with shrubs and benches which makes a nice gathering place for students.

Dependng on where you will install the Bent monument, you might want to consider doing something such as Texas Lambda did. I don't have a photo but let me dscribe it briefly: The monument is mounted on an attractive base in the front center of their Engineering Building. The walkways are constructed around it and are artistically done with plantings of shrubs, natural rock, red-wood chips, etc. This creates the impression of an area and makes the Bent very prominent, of course, because everyone must walk around it to get into the building. I hope these ideas may be helpful to you.

THE TAU BETA PI ASSOCIATION
POSTPONED & FINANCIAL REFUSAL ELECTEES

Chapter Kansas Gamma

Date Spring 1979

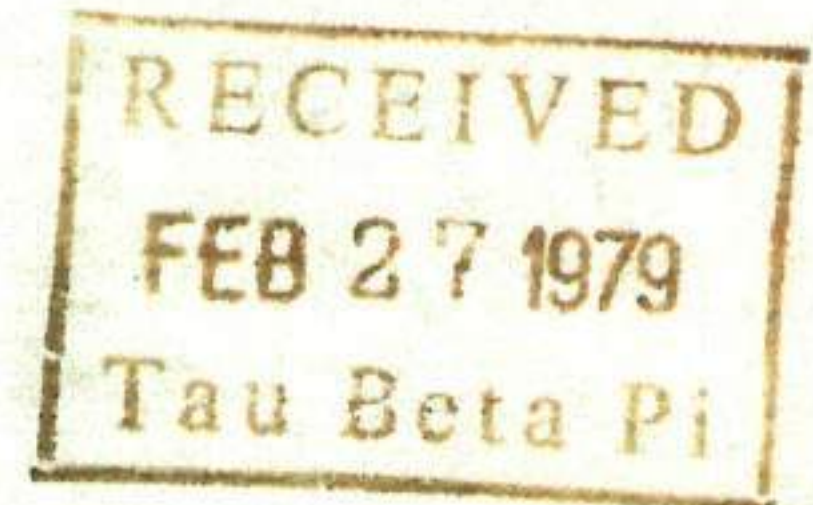

The persons listed below were elected by your chapter during past initiation seasons as noted. They have refused membership for financial reasons (Constitution Article VIII, Section 10) or have simply missed attending a formal initiation. They need only to be initiated and should be invited to attend your next initiation, unless their election is to be cancelled, at the option of your chapter.

If it is inconvenient for them to return to your chapter for initiation, arrangements can be made through the National Secretary for their initiation for you by chapters near their homes.

Please indicate the action to be taken on each electee listed; i.e., To be initiated on ? (date); Election cancelled by the chapter; Continue financial refusal or postponed status; etc. Return this sheet with your Report of Election. A new list will be sent to you prior to your next election of new members.

<u>NAME & CLASS</u>	<u>STATUS-ELECTED</u>	<u>RE: KEY</u>	<u>ACTION BY CHAPTER</u>
Ha T. Do, '80	Postponed - Fall 1978	We have key	Refusal of Initiation
Jay A. Hathaway, '81	" "	"	Will Initiate in Spring of 1979

If we have possession of the key for any person to be initiated, it will be returned to you. A new membership certificate will be ordered bearing the correct date of initiation

Dear Sir:

I have enclosed in this envelope the report of election for the new pledges for Spring Initiation 1979.

We are waiting for permission to hold our initiation on April 22, 1979. The data cards and other such things will be sent after the first pledge meeting which will be held on Monday, February 26, 1979.

Sincerely,

A handwritten signature in blue ink that reads "Michael McGeough".

Dear Sir:

Included with this letter, you will find the catalog cards and form filled out for the delivery of keys and certificates. The report of election was sent separately, about two weeks earlier.

We seem to have no information about the billing procedure for our chapters dues, keys, and certificates. If it is necessary to have this included before the keys and certificates can be produced, please inform us of what we need to do.

Sincerely,

Dear Mike:

Your March 4 letter, catalog cards, and key and certificate delivery form have arrived, thanks very much. In response, here is a revised approval for your April 22 initiation. Also enclosed is the key for Jay Hathaway who, we understand, will be initiated this spring.

You have asked about the billing procedure for dues, keys, etc. Stop worrying. Of course it is not necessary to pay the central office prior to ordering keys and certificates. When your initiation has taken place and the Report of Final Action reaches my office we shall then charge the national initiation fee of \$21.00 to your chapter account routinely. Your treasurer will then get our statement and he can send us a check. The \$21.00 national initiation fee includes the cost of the key and certificate, so there is no extra charge for those items. The keys and certificates for your spring electees have been ordered and you should have delivery of them in time for your April 22 ceremony.

If you have further questions in this regard, don't hesitate to write to me about them.

Sincerely yours,

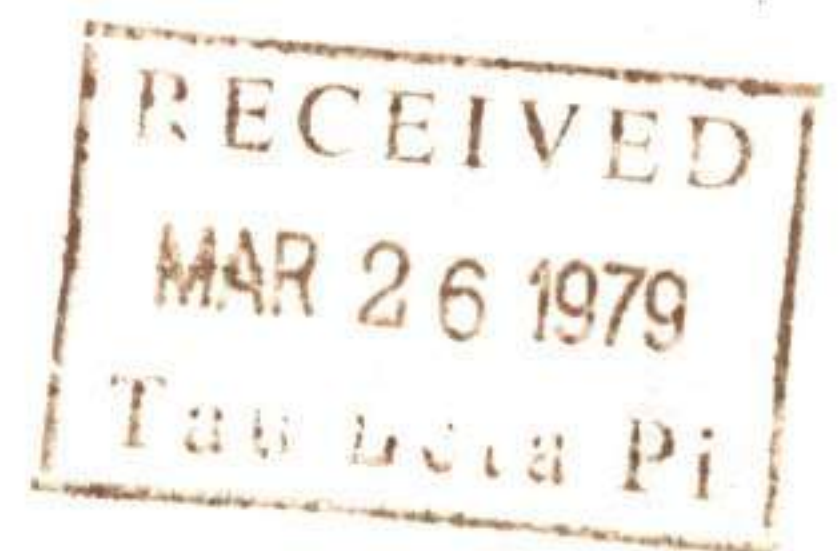

Robert H. Nagel

Dear Dr. Nagel:

Please issue a Certificate for recognition to the Kansas Gamma Chapter to:

Brett A. Stanley

His certificate was not with the package for December 3, 1978 and he would like to have one. He did receive his Bent.

Thank you for your cooperation in this matter.

Sincerely,

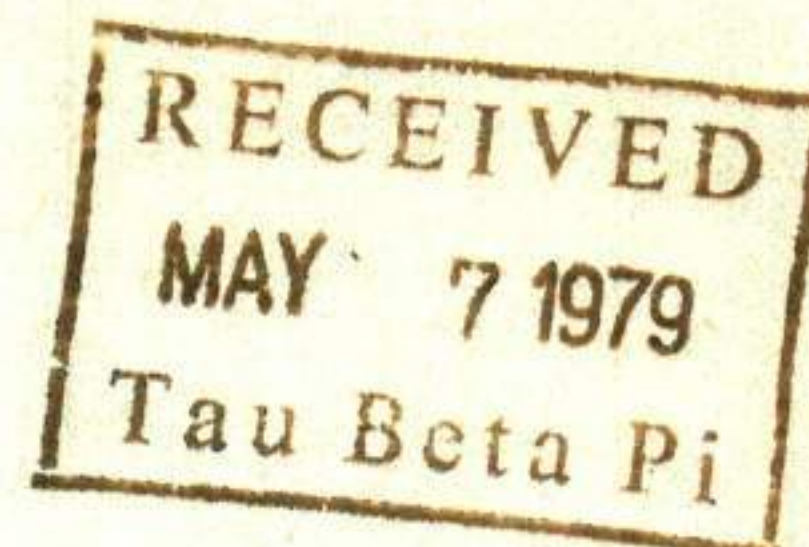

Frank A. Tillman, Ph.D.
Head, Department of Industrial Engineering

Dear Dr. Tillman: Brett Stanley's certificate was ordered routinely along with the others in his initiation group, Balfour obviously overlooked printing that particular one. We are reordering it now for delivery directly to you; it should arrive in about three weeks. Our apologies!

Dear Sir,

I have included the final report of action for the new spring initiates. There was one error on the sheets previously sent you. The name of Kevin Dow was included as a member of the society. He has never been initiated and has no interest at this time for being a member of the society. If he is marked in the records as a member please change this.

Sorry about the inconvenience.

Thank You.

Mr. Nagel,

I have enclosed a Report of Elections form. This is a list of the current officers of Kansas Gamma. We elect officers in November or December and they reign for a full year. To meet the year-end requirements, I have enclosed this form even though it is the same form you received earlier in December 1978.

Sincerely,
Spencer White

Spencer - Many thanks - This is a good way to handle the situation, even though it means sending a duplicate report. It also helps us in our record-keeping!

Dear Mike:

This will acknowledge with thanks receipt of your September 28 letter and Kansas Gamma's Reports of Eligibility. In response, here is our regular Eligibility Acknowledgement form upon which you will note that we have approved for election all of your graduate student candidates and your eminent engineer candidate, Dr. John Biegel. But I have a few questions, please:

First, concerning Dr. Biegel: You have told us that he is a professor in your Department of Industrial Engineering but you have not given us any of his educational background, that is, the institutions he attended, the degrees earned, and dates of those degrees. Please send this additional data to us to complete our files on Dr. Biegel. On the basis of Dr. Frank Tillman's approval of your Report of Eligibility, we have not withheld our approval of his election.

Concerning your graduate student candidates: You have given us the fields that each of them earned their BS degrees in, but you didn't tell us where or when they got those BS degrees. This is true for nine of these graduate student candidates; for three others, you have given us the fields and dates of their MS degrees but you didn't give us BS degree information nor institutions attended information.

For the final Section 3 graduate student candidate, Mr. Subhash Sinha, you have given us his BS, MS, and Ph.D information. But what is he doing now? Do we assume correctly that he is earning a second Ph D at Kansas State? If he is not a graduate student at the present time, he is not eligible for election under Constitution Article VIII, Section 3.

Please send me the additional data needed to complete this Report of Eligibility and please also answer our questions concerning Subhash Sinha. Here again, however, on the basis of Dr. Tillman's approval of your report, we are not withholding our approval because we don't want to delay your chapter's consideration of these candidates.

Mr. Michael McGeough

Your letter tells me that you are having trouble getting active-member address information so as to return the corrected computer printout. I understand that after your election meeting, you will have the information available and will send the listing on then. That will be perfectly fine with us.

Sincerely yours,

Dear Mr. Nagel:

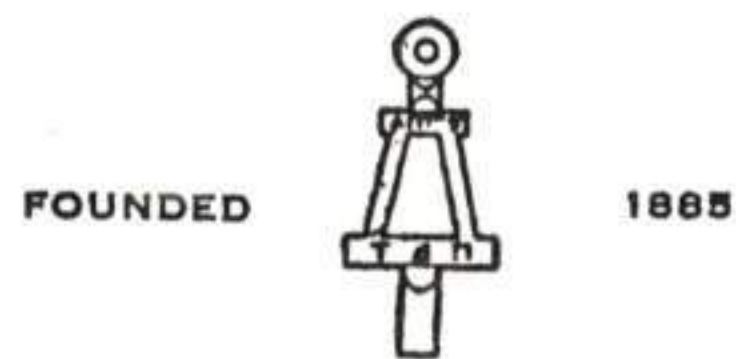

I have enclosed the Tau Beta Pi reports of eligibility for the fall 1979 initiation. If there are any questions on these reports, feel free to contact me.

I have the list of active members that you sent us. We are having troubles getting ahold of most of the members to find out what their new school addresses are. Many of the members have not listed their new address in the telephone or student directories. After the meeting for election of new members, we should have a much more complete collection of corrections. I will send the list on after this time.

Re: Eligibility of Candidates for Membership

To the President of

Kansas Gamma

Chapter:

* Your Report of Eligibility has been received, thank you.

* Your undergraduate candidates are judged to be eligible for membership under Constitution Article VIII, Sec. 2.

* Your graduate-student candidate(s) are judged to be eligible for membership under Constitution Article VIII, Sec. 3, as follows: Mark Flin, Donald Gallagher, David Hein, Daksheh Parikh, Kenneth D. Matney, Yang Pan, Kou-John Hong, Kuo Way, Mohamed Musa Babiker, Kwangsoon Yoon, Subhash Sinha, Kent Scarbough, Chih-Shyong Shih, Anil Singh, David Soldan

Larry Van Arendonk, Dae Hee Youn, Hwang-Hwei Slang

Your alumnus candidate(s) are judged to be eligible for membership under Constitution Article VIII, as follows:

_____ Secs. 4() & 7.

_____ Secs. 5() & 7.

Dr. John E. Biegel

_____ Secs. 6() & 7.

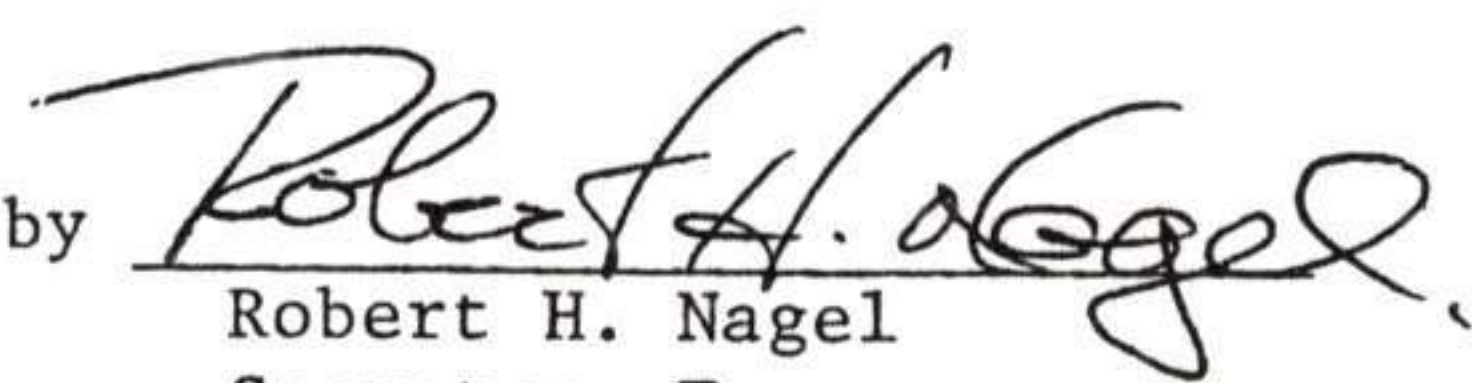

This letter does not constitute approval of the initiation of these candidates. It is only a judgment of their technical eligibility for election to membership. Approval of their initiation will be given as soon as your Report of Election and Catalog Cards have been received.

Please be sure to enter, on the Report of Election, the proper action taken by your chapter on every eligible candidate, in accord with instructions on the report form.

Keys and certificates will be ordered when we receive your Report of Election and a Catalog Card for each electee. Please remind electees that Catalog Cards are permanent records of their membership and that we need full names (no initials), legibly printed, class years, and proper mailing addresses.

If you requested, on the Report of Eligibility, electees' materials, including Constitution and Bylaws booklets, etc., and Bent castings, they are being mailed to you today under separate cover.

Dear Mr. Nagel:

I have already sent the report of eligibility^{tin} to you. However, we have just been notified of a few additions to the list. We no longer have any forms for graduate students and would like to have a few more. The names of these people can then be put on the proper forms or you can do it there and send the rest of the sheets back to me.

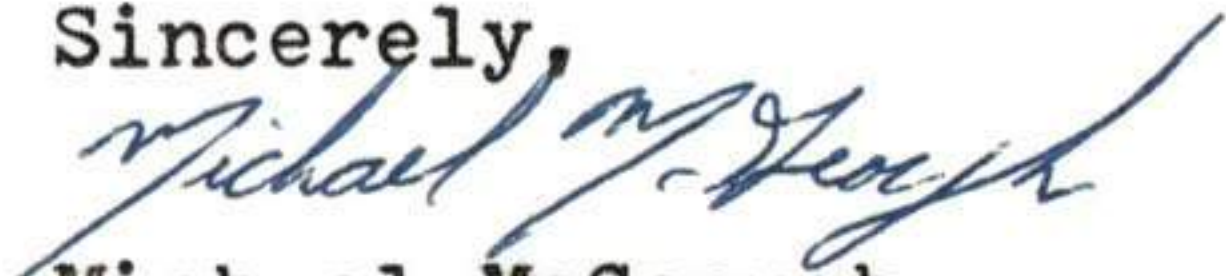

The names of the graduate students are:

John Anschutz Agricultural Engineering
G. Alan Johnson Agricultural Engineering
Donald A. Suderman Agricultural Engineering

We also have a faculty member that would like to get initiated. He is presently a member of Sigma Tau. I understand that he is not required to go through any of the ordinary initiation procedures besides the formal initiation. We will plan on doing this.

If there are any special things to do for this case, please let me know.

Dear Michael:

I have your September 30 letter, thank-you. Yes, we have received your Report of Eligibility and it has already been acknowledged to you along with my October 2 letter containing several questions concerning your graduate student candidates and your eminent engineer candidate, Dr. Biegel. I assume I shall have a response from you soon in answer to that letter.

You have given me the names of three additional graduate student candidates and I believe it would be best for you to fill out the reports for them, because, as you now understand, we need additional information other than their names. And we also need Advisory Board approval of their candidacy.

A supply of graduate student report forms is enclosed. Just send us the completed report for these three additional grad students, and we shall respond appropriately.

There are special things to do for your Sigma Tau faculty member. First, he doesn't pay Kansas Gamma's regular initiation fee. Rather, he sends his \$26.00 national initiation fee directly to my office. Please see the enclosed brochure which was prepared for alumnus members of Sigma Tau at the time of the merger. Please give this to your faculty person and explain to him that, if he wants to attend Kansas Gamma's formal initiation, he should complete the Alternative No. 1 coupon and send it to my office with his \$26.00 check. We shall respond by sending special initiation approval papers for him. On the other hand, if he ~~will~~ be unable to attend your next initiation, he should choose Alternative No. 2 and complete his initiation by mail.

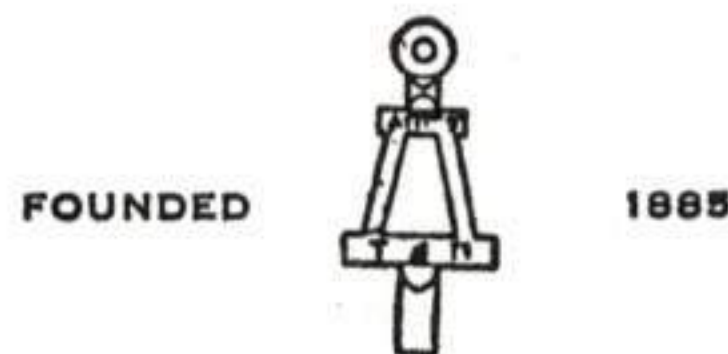

So that you will have them on hand for use if necessary, I am enclosing several additional brochures for Sigma Tau alumni. I suggest that you read the brochure so that you will fully understand how this situation is handled.

Sincerely yours,

Robert H. Nagel

Dear Spencer:

We have received the ~~Reports~~ of Eligibility for your Section 3 graduate students and your Sigma Tau alumnus candidates, thanks. In response, here is our regular acknowledgement form.

Your graduate student candidates are all fully approved.

Your Sigma Tau alumni are approved as follows: Dr. James M. Steichen is Section 5 because he was a Sigma Tau member at Oklahoma State University, not at Kansas State; Robert E. Dahl was a Sigma Tau member at Kansas State, so he is approved under Section 4.

Your report lists Dale Simons, but we do not find a member of Sigma Tau by this name. Rather, there is a Gale Gene Simons who was a member of Sigma Tau at Kansas State and we suspect that this is the person ~~whom~~ you are considering for membership, thus he is approved also under Section 4.

OFFICIAL INITIATION APPROVAL

To the President of the Kansas Gamma Chapter:

** Your Report of Election and Catalog Cards for eligible students have been received and your election of 37 undergraduates is hereby approved, under Constitution Article VIII, Section 2.

** Your Report of Election and Catalog Cards for graduate-student, alumnus, and eminent-engineer candidates have been received and their election is hereby approved under Constitution Article VIII, as follows:
John Anschutz, G. Alan Johnson, Donald Suderman,
Mohamed Babiker, Kwangsoon Yoon, Kenneth Matney, Yang Pan, Dae H. Young Hwang-Hwei Siang Sec. 3

Gale Simons & Robert Dahl Sec. 4

James Steichen Sec. 5

John E. Biegel Sec. 6

** These 50 electees are approved for initiation on November 19, 1979.

** We need Catalog Cards for the following electees: Ronald C. Logan, Peder James Paulson,
Robert E. Dahl, Gale Gene Simons, & James M. Steichen -- we cannot order keys and certificates
for these five people until we get their catalog cards!

Please note -- you enclosed a catalog card for David Allen Martz who was clearly marked as refused so we are returning his catalog card herewith. If he is to be initiated, then he is approved and you should return his card with the Report of Final Action. O.K.?

Keys have been ordered for delivery as soon as possible. (They usually require 3 to 4 weeks for delivery.)

** Certificates have been ordered for delivery as soon as possible.

Dear Mr. Nagel:

I have enclosed the report of final action for our fall initiation. Along with this report, I have enclosed two catalog cards- for Ronald Logan and David Allen Martz.

There are quite a few corrections and details that need to be mentioned here. First of all, the following three people decided not to join the association:

G. Alan Johnson
Virgil Stout
Hwaing-Hwei Siang

I have changed there status on the report of final action. All of these people are marked as refusing election or refusing initiation.

There was a mistake on the report of election, David Allen Martz had planned on being initiated, and was initiated. Peder James Paulson had refused election. These corrections have also been made on the final report.

The following three people are Sigma Tau members that originally decided to be initiated into Tau Beat Pi by way of our initiation ceremony, but upon receipt of the Sigma Tau Merger Letter, decided to join by mail. Each of these people have an interest in joining Tau Beta Pi, but not through our chapter initiation ceremony. They are:

Dr. James Steichen
Gale Gene Simons
Robert E. Dahl

These people have been marked as refusing election on the report of final action.

We are also missing Keys for the following initiated members:

Robert Stuewe
Todd Smith
Don Suderman
David Martz
Ronald Logan

Joan Stammer
Jeff Wilber
Dae Hee Youn
Michael Thome

The keys that we do have for people that have not been initiated will be sent back at a later date.

Dear Mike:

Many thanks for your December 1 letter and the Report of Final Action for Kansas Gamma's November 19 initiation. In response to your report, here is our routine acknowledgement form for your chapter records.

I appreciate your pointing out all of the corrections, etc. and, with your good help, all of our records are accurate now.

O.K., we shall sit back and wait to hear from the three Sigma Tau alumni who have changed their minds and decided to opt for our initiation by-mail procedure. No problem.

Our apologies for the missing keys. One of our gals who places the orders goofed and simply left those last nine names off of the key order listing. But we have ordered those keys now along with a couple of other keys we owed you and they will arrive from Balfour in a few weeks.

Finally, yes, do return the keys for people who have not been initiated so that we can give your chapter account credit for them.

Sincerely yours,

Robert H. Nagel
